For instance, if you are near-sighted (myopia), far-sighted (hypermetropia), have astigmatism or presbyopia (loss of near vision) and have not been diagnosed with any other conditions or would not like any other conditions addressed the exam would fall under vision insurance. If there is anything else that you would like discussed during the exam such as **red eyes, dryness, allergies, or any drug prescription updates this would fall under medical and a separate visit may be needed.** It would also fall under medical if you have been previously diagnosed with conditions such as cataracts, diabetes, glaucoma, macular degeneration etc. and would like them addressed. We are qualified to and will happily treat any eye conditions, however, we do not accept any medical insurances.

For those that qualify to use vision insurance, we will happily file to VSP for patients if they have insurance but that is the only vision insurance we accept. We can provide paperwork, if you would like so you are able to file if you do not have VSP and the visit will be at our private pay rates.
